COUNTY OF ORANGE LILLY SIMMERING TO: President Dr. Allan Bernstein

Members of the Board of Trustees

FROM: Rick Howard, District Manager

RE: Fiscal Year 2016-17 Budget Transmittal

I am pleased to submit the FY 2016-17 Annual Budget for the Orange County Mosquito and Vector Control District. The FY 2016-17 Budget fully funds District operations in accordance with the District's Mission Statement and Values:

The mission of the Orange County Mosquito and Vector Control District is to provide the citizens of Orange County with the highest level of protection from vectors and vector-borne diseases. As per its mission statement and values in achieving its mission, the Orange County Mosquito and Vector Control District shall:

Be proactive in response to current and future vector threats.

Respond effectively and courteously to the needs of the public.

Inform and educate the public about the shared responsibility of vector control.

Utilize the most effective and safest methods available for the control of vectors.

Provide vector control services in the most cost-effective manner.

Prior to the introduction of West Nile virus (WNV) in 2003, our primary public health role was to survey and suppress *potential* vector species. The unprecedented proliferation of WNV in Orange County in 2014 and 2015 has fundamentally changed the manner in which we do business and now requires us to suppress *actual* disease-carrying vectors. In 2015, we added program enhancements to address vectors which can carry WNV. For 2016, we are adding measures to our monitoring and suppression efforts to combat the invasive *Aedes* species that can carry chikungunya, dengue fever, Zika virus, and dog heartworm.

In order to remain proactive and better prepare for mosquito borne diseases, staff has reviewed the components of our Integrated Vector Management Plan (IVM). As a result, staff is recommending a number of refinements geared towards becoming a more defensive organization that anticipates potential issues and minimizes the effect on residents of public health risks associated with vectors and vector-borne illnesses. This is no easy task considering vectors and vector-borne diseases are constantly adapting to new environments and challenges to their survival. This budget outlines how we will continue to make informed, strategic fiscal decisions while being able to continue to maintain and improve our level of service to the community.

Background

In 2015, Orange County experienced its second worst year for WNV with 97 humans cases in which 8 resulted in death. By using enhanced mosquito and disease surveillance techniques, the District identified specific "hot spot" areas for WNV in the County and was able to respond early and aggressively with increased ground-based adulticiding, additional surveillance, and implementation of new District-wide education strategies.

In early October 2015, the District identified the presence of the yellow fever mosquito (*Aedes aegypti*) in Mission Viejo. Shortly thereafter, the yellow fever mosquito was also found in the cities of Garden Grove, Anaheim, Costa Mesa, Santa Ana, Lake Forest and Orange. To compound the issue, the Asian tiger mosquito (*Aedes albopictus*) was identified in the cities of Huntington Beach and Los Alamitos. Due to the presence of these two invasive *Aedes* species, the risk to residents is no longer isolated to just WNV. Both *Aedes* species are capable of vectoring chikungunya, dengue and Zika which are wreaking havoc internationally.

The preliminary budget outlines a number of program enhancements, including additional education and outreach programs, and specific operational measures *specifically* aimed at combatting West Nile Virus (WNV) and invasive *Aedes* mosquitoes.

Summary of Program Enhancements to Address WNV & Aedes Mosquitoes

Education and Outreach

Public Education and Outreach is a significant component of the District's vector management program. The development of the District's "Inspector Training Course" and exhibit at the Discovery Cube of Orange County (DCOC) is a long term investment in community partnership. The District's agreement with the DCOC includes development of a program designed around the California State Science Content Standards to provide grade-level-specific curriculum to teachers, along with the training and supplies that will allow them to implement the content in their classrooms. As a result, staff recommends the addition of an Education Coordinator. This new position will collaboratively work with District staff and school districts to continue to promote the District's "Shared Responsibility" message towards educating younger members of the public on vectors and vector-borne diseases. This position is being proposed as a two-year "Limited Term" position. The overall success of the position will be evaluated based upon beneficial program results, and its continued inclusion in future District operations will be based upon those clearly established results. Funding for this position is to be derived from existing revenues.

For FY 2016-17, I am recommending that the District allocate \$162,000 from general operating reserves to fund four (4) "one-time" outreach and knowledge-based projects. The projects include a statistically valid outreach survey that will provide critical knowledge-based data on the District, vectors and vector borne diseases; three permanent interpretative displays; media tracking services; and a mobile interactive and interpretative display vehicle. Staff recommends that these expenses be allocated from reserves within the District's General Operating Fund (estimated balance of \$7.883M at July 1, 2016).

Operations

The addition of an Integrated Vector Management Compliance Officer is being proposed. The District's vector control activities are based on the principals of IVM. These principles serve as the foundation for developing safe and effective vector control activities. The District recognizes that utilizing IVM principles will ensure the responsible use of public health pesticides. The IVM Compliance Coordinator will be responsible for District-wide safety concerns with emphasis on pesticide safety and selection, equipment calibration, dosage rate calculations, reporting and monitoring and cataloguing all chemicals utilized District wide. This position will also be responsible for emergency management practices (ICS/SEMS/NIMS) and coordination and integration with local emergency coordinators. Funding for this position is to be derived from existing revenues.

The District has historically had difficulty achieving successful outcomes in controlling underground sources of mosquito breeding. The addition of an Urban Water Compliance Planner will serve as the District's liaison to other governmental agencies, private groups, and individuals in enforcing the District's Vector Reduction Management Program. The position requires a thorough understanding of District source reduction policies, Integrated Vector Management principles, regulations pertaining to the California Health and Safety Code, NPDES standards, CEQA/federal environmental laws, and property rights, including familiarity with stormwater management and infrastructure design, public works engineering, pesticide usage, and city code enforcement. Funding for this position is to be derived from Assessment District #2, as described below.

It is essential that the District has the proper assets in place to support its overall mission of protecting public health. Due to potential high level of disease transmissions in known WNV *High Risk Areas* (HRAs) within Orange County and the increasing frequency of invasive *Aedes* species, many areas of District activities such as mosquito control, disease surveillance and public outreach/education need to be expanded. As a result, this year's budget commits significant resources aimed at combatting both the *Culex* (carriers of WNV) and invasive *Aedes* mosquitoes. The addition of a *West Nile Virus Strike Team* and an *Aedes Response Team* have been included in the proposed FY 2016-17 budget to fight both mosquito species. The WNV Strike Team consists of an additional 4 seasonal employees to be teamed with 4 existing Vector Inspectors, while the Aedes Response Team will add an additional 8 seasonal employees. Additionally, and in an effort to fight mosquito breeding in underground storm drain systems in the county's HRAs, I am recommending the addition of a second shift to the District's Underground Storm Drain Team consisting of an additional six extra help and 2 full time permanent employees.

The WNV Strike Team, Aedes Response Team, and Underground Storm Drain second shift will provide increased mosquito response before outbreaks occur. These proactive efforts include mosquito suppression in the county's known HRAs and will focus on prevention and education of the dangers of WNV-carrying and *Aedes* mosquitoes. The District's ability to target problematic areas with preventative measures to potentially reduce disease transmission cycles is *the* desired outcome of these efforts.

The associated personnel, chemicals and fuel costs for these operational programs are recommended to be funded by increasing Assessment District #2 by \$.70/ single family equivalent from the FY 2015-16 assessment rate of \$6.02/EDU. After reducing the FY 2015-16 assessment by the \$0.50 one-time increase which was approved for funding the Emergency Vector Control Reserve, the Assessment District #2 base assessment rate is \$5.52. The increase to the assessment is comprised of the following on-going changes to the District's operations:

		Estimate	ed Costs	Additional Assessment
A.D. #2 Base Assessment;	\$5.52		-	
Proposed Assessment #2: Permanent Funding (4	1/26/16)			
2.0 FTE Vector Control Inspector II		\$213,000	\$213,000	\$0,26
1.0 FTE Urban Water Program Manager		117,850	118,000	0.14
Subtotal Permanent Funding		330,850	331,000	\$0.40
Ongoing/Permanent Funding Needed				
O&M (Chemicals and Fuel)		150,000	150,000	0.18
Seasonal Employee / PT				
8.0 Seasonal Aedes Response Team		121,900		
4.0 Seasonal West Nile Strike Team		61,100		
Subtotal Aedes/WNV Teams	•	183,000	183,000	0.22
6.0 Vector Assistants (Extra Help)		331,000	331,000	0.40
		697,000	514,000	0 62
	\$6.72		\$ 995,000	\$1.20

The proposed programmatic changes included within this budget represent an important transition towards the District being able to address vector-bone threats in a more practical manner that utilizes existing best practices and expands upon those which are already in place. The program and personnel augmentations are aimed at reducing immature (larval, pupal) mosquitoes through source elimination, public awareness, and improved treatment cycle times. The

ability to better educate the public and to suppress mosquitoes before they become carriers of disease is critical in combatting WNV before an epidemic outbreak.

While these efforts are aimed controlling disease outbreaks before they begin, they may not be enough to stop the rapid proliferation of vectors and vector-borne disease during a disease epidemic. During such times, aerial applications of adult mosquito control products should be considered in order to fulfill our mission of providing the highest level of public health protection. The public is assured that the District will exhaust all other control strategies and methods before an aerial application is considered.

Financial Information Overview

For FY 2016-17, the Budget Summary for all funds is as follows:

All Funds	FY 2015-16 Budget	FY 2015-16 Estimated	FY 2016-17 Proposed
Personnel	\$ 7,642,780	\$ 7,961,680	\$ 8,853,710
Maintenance & Operations	6,092,700	3,821,029	3,798,100
Capital Outlay	451,600	531,403	855,200
TOTAL	\$ 14,187,080	\$ 12,314,112	\$ 13,507,010
		CHANGE	9.7%

Revenue:

Total projected revenue for FY 2016-17 is \$13,357,450. The District's largest sources of revenue are property tax and two benefit assessments. Together, these revenues account for \$12.5 million (94%) of all FY 2016-17 revenues, and are described, below:

Ad Valorem Property Tax: A 4% increase in FY 2016-17 revenues is anticipated, resulting in projected revenues of \$5.3 million.

Assessment District No. 1: This assessment provides funding for vector control and disease surveillance services and related capital, operational, and administrative expenses. The rates of the annual assessments levied in connection with Assessment District No. 1 have been unchanged since 1996 (\$1.92 per Benefit Unit). For FY 2016-17, Assessment District No. 1 is anticipated to yield \$1.6 million.

Assessment District No. 2: This assessment is known as the Mosquito, Fire Ant, and Disease Control Assessment and may be used to fund new and enhanced vector-control programs. This assessment was established in 2004. The initial maximum assessment rate balloted and established by the voters in FY 2004-05 was \$5.42 per Single Family Equivalent unit (SFE). The authority granted by the voter-approved ballot includes an annual adjustment to the maximum authorized assessment rate equal to the annual change in the Consumer Price Index for the Los Angeles area, not to exceed 3%. Since its inception, the District has lowered the assessment or maintained it at current levels for 10 of the past 12 years. However, and as discussed above, due to the risk of additional invasive mosquito species entering the County, the Board approved the FY 2015-16 levy at \$6.02 per SFE, \$0.87 less than the maximum authorized rate of \$6.89 per SFE, but \$1.00 more than the prior fiscal year's levy. The \$1.00 increase was authorized under the assumption that \$0.50 was needed for increased permanent funding while the remaining \$0.50 was needed to build up the reserves in the Emergency Vector Control Fund.

The following chart shows the historical levy by fiscal year.

Assessment District #2

FY	CPI History	Maximum Authorized Assessment Rate	Actual/ Proposed Assessment Rate Levied			
2004-05	N/A	\$5.42	\$5.42			
2005-06	3.66%	\$5.58	\$5.30			
2006-07	5.42%	\$5.75	\$5.25			
2007-08	3.20%	\$5.92	\$5.14			
2008-09	3.92%	\$6.10	\$5.10			
2009-10	-0.09%	\$6.28	\$5.06			
2010-11	1.76%	\$6.46	\$5.02			
2011-12	1.80%	\$6.58	\$5.02			
2012-13	2.09%	\$6.72	\$5.02			
2013-14	1.95%	\$6.85	\$5.02			
2014-15	0.77%	\$6.90	\$5.02			
2015-16	-0.05%	\$6.89	\$6.02			
2016-17	3.0% (Max)	\$7.10	\$6.72 PROPOSED			

Assessment District No. 2 estimated revenue for FY 2016-17 has been programmed at \$5.6 million and assumes a levy rate of \$6.72 per SFE. This is \$.70 above the current year allocation of \$6.02, yet \$0.38 below the FY 2016-17 maximum allowable assessment rate of \$7.10.

The rate of \$6.72 per SFE is made up of the following components:

- \$5.52 per SFE (the FY 2015-16 rate without the \$0.50 emergency vector reserve funding)
- \$0.22 per SFE to provide funding for the establishment of an 4 member invasive *Aedes* Response Team and the creation of an 8 member West Nile Virus Strike Team
- \$0.14 per SFE to provide funding for an Urban Water Compliance Planner
- \$0.66 per SFE to provide funding for a second 8 member underground Storm Drain Team
- \$0.18 per SFE to provide funding for additional pesticides used by the underground Storm Drain Team

If authorized by the Board of Trustees as a part of this budget, the public hearing and vote to approve the proposed Assessment District #2 rate for FY 2016-17 at \$6.72 shall take place at the June 2016 Board of Trustees meeting.

Expenditures:

Operating Expenditures

The primary objective when putting together the District's operating budget is to allocate resources in a manner that continues to support the highest level of protection from vectors and vector-borne diseases to the citizens of Orange County. As stated earlier, several areas of District operations were examined and this budget includes several program enhancements.

It is anticipated that the Operating Fund expenditure budget, excluding transfers to other funds for FY 2016-17, will be \$12.9 million (\$8.9 million for personnel costs, \$3.5 million for maintenance and operations costs, and \$0.5 million for capital costs). This represents an increase of \$1.3 million over FY 2015-16 (11.6%) and is derived from a variety of new expenses totaling \$1.6 million, and is offset by miscellaneous cost reductions of \$0.3 million. The breakdown of new expenditures is identified below.

Personnel

Personnel costs make up approximately 70% of the District's total operating expenditures. During FY 2015-16 the District authorized 58 regular full-time employees and 72 seasonal and extra-help staff. The FY 2016-17 Proposed Budget includes 63 regular full-time employees and 90 seasonal and extra help staff. The fully burdened cost for all District personnel, including regular full time, seasonal and extra help is \$8,853,710.

All employees, excluding management and administrative confidential staff, are represented by the Orange County Mosquito and Vector Control District Employees' Association (OCMVCDEA). The current Memorandum of Understanding (MOU) between the District and OCMVCDEA is set to expire June 30, 2016. Negotiations for a successor MOU will begin in spring 2016. No potential salary or benefit changes have been incorporated in the proposed budget; and any additional costs resulting from the new MOU will be approved as a separate action at a later date.

Operations and Maintenance

Scientific Technical Services Department

To combat the high WNV infection rate and introduction of the invasive *Aedes* mosquito species, the estimated supplies and personnel cost for heightened mosquito and disease surveillance in FY 2016-17 is projected to be \$27,000 over FY 2015-16.

Operations Department

As a part of the addition of a second underground shift, no new vehicles are required. However, additional fuel and pesticide costs have been programmed at a cost of \$150,000.

Communications Department

The breeding habits and behavioral characteristics of the *Aedes* species Asian Tiger mosquito and the Yellow Fever mosquito make them the most successful invasive species and the most difficult species to control. Both species are container breeders that lay their eggs individually, making traditional larvaciding techniques challenging. Several other districts throughout California have been battling these species for several years and have had little success finding effective control methods. Some experimental methods are being tested and look promising, but ultimately significant, long-term control cannot be accomplished without changes in human behavior. Development and implementation of a strategic and well thought out public education campaign is key to reducing the population of these aggressive, daybiting vectors of yellow fever, dengue, chikungunya and Zika virus.

These diseases are rapidly spreading throughout the world, enhancing the risk of infection to residents of Orange County. While science will aid in the control, public education is equally, if not more, important in protecting human lives. Staff recommends that \$150,000 be included in the coming fiscal budget in order to target advertising and educational materials where they will have the most immediate effect. Included would be advertising to reach larger audiences and production of school program materials.

Additionally, \$118,000 for FY 2016-17 for software and licensing are programmed to keep the District's activities technologically sound. Much of the technological infrastructure is aged and is no longer supported.

Capital Outlay

Total capital outlay costs are proposed to be \$855,200 in FY 2016-17 including Operating Fund and Facility Improvement Fund expenditures.

Operating Fund: Total operating fund capital outlay costs are proposed to be \$485,200 for FY 2016-17 and include the following items:

\$10,000 to procure a new performance evaluation software. The District's current software is outdated and is no longer supported. In addition, it must be housed on an old network server due to the software being too outdated to run on the District's newer, more reliable servers.

\$51,000 to purchase new testing equipment for the Scientific Technical Services Department. The needed equipment are an AIMS unit (to assist in monitoring pesticide droplet size generation from District adulticiding equipment to ensure correct chemical application rates) and a new PCR Machine (polymerase chain reaction) utilized for multiple types of simultaneous testing.

\$100,000 to replace 3 operations vehicles. The District's current vehicle replacement policy states that vehicles shall be replaced at 10 years or 100,000 miles. The District has been able to extend the life of many of the vehicles beyond the 10 year/100K mile threshold; however, vehicles that are beyond their serviceability lifetime require replacement.

\$8,500 to replace existing surveillance cameras and add additional cameras at District facilities.

\$66,000 for a Dual Server SAN and VM Server to begin the process of moving away from traditional servers toward virtualized (cloud based) servers. Using server virtualization, the District can maximize the use of its server resources and reduce the number of servers required. The result is server consolidation, which improves efficiency resulting in lower overall costs.

\$68,000 for server room upgrades and additional equipment. The existing server equipment is housed in a closet in the Board Room. This is not an ideal location as it is susceptible to tampering and damage. The Facility Improvement Fund includes funding for the construction of a new server room which will provide additional space and security. Upgrades and additional equipment is being proposed to ensure that the District's information technology meets current standards.

\$54,700 for computer and other information technology related replacements and upgrades. Staff is using outdated and unsupported desktop computers. Many of today's business applications no longer run on the operating systems presently in place and are no longer supported.

\$127,000 for fixed and mobile interpretative and interactive displays, described previously as part of the one-time outreach and knowledge-based projects.

Facility Improvement Fund: Total Facility Improvement Fund capital outlay costs are proposed to be \$370,000 and include the following:

\$115,000 to repave the parking lot at the main District facilities. A formal bid process and Board approval will be sought prior to the work being performed.

\$175,000 for the construction of a new server room and IT staff office space.

\$75,000 for a new employee shower and locker room. Presently, operations staff has scheduled times for change outs as the existing room is inadequate to handle the entire operations staff at one time.

Other Funds: Other funds' operating expenditures are proposed to be \$231,100 for FY 2016-17.

Emergency Vector Control Fund – The District has been exploring all mosquito control options that could be employed to combat possible future WNV epidemics. One method to knock down mosquitoes in the environment during a potentially severe year is through the use of aerial application services. Total cost is dependent on the number of acres requiring treatment and the number of treatments necessary to curb infection rates. Staff has estimated that treatment for approximately 100,000 acres could be necessary in a very severe year. Additional treatments could be necessary should initial treatments fail to reduce the number of infected mosquitoes below virus transmission thresholds, or new areas of concern arise. The FY 2016-17 budget does not include a line item expenditure for aerial application services since it is unknown if the District will have to use this tool or the extent to which it would be needed. The fund balance reserve for emergency vector control will remain at current levels of \$1,146,000.

Facilities Improvement Fund: Operating expenditures total \$72,100 for FY 2016-17, an increase of \$7,400 from FY 2015-16. This increase is primarily due to anticipated repairs and maintenance of the Haster Business Park facilities.

Habitat Remediation Fund: Proposed expenditures total \$1,000 for FY 2016-17 for water quality testing and minor maintenance for the siphon remediation project at the Big Canyon area of the Upper Newport Bay.

Retiree Medical Insurance: The most recent GASB 43 & 45 actuarial valuation of the District's retiree health insurance program reported that retiree medical costs were fully funded. As a result, it was recommended that the District suspend contributions toward the fund and begin receiving reimbursement from the Retiree Medical Trust for all District funded costs incurred until the next valuation. As a result, revenues are fully expected to offset expenditures of \$158,000 in FY 2016-17.

Retirement Contingency Fund: As of January 2007, the District switched its defined benefit pension plan from the Orange County Employees Retirement System (OCERS) to the California Public Employees Retirement System (PERS). Per the Termination and Continuing Contribution Agreement between OCERS and the District, commencing December 31, 2010 and every three years thereafter OCERS recalculates the District's Unfunded Actuarial Accrued Liability (UAAL) obligation, based on accumulated assets and liabilities attributable to the District. The most recent withdrawal liability was as of December 31, 2014. This calculation was the triennial update in accordance with the termination agreement. As such, payment of the liability is required within three years of the study date. The District paid the total amount due, \$314,474, in full. Since the next triennial update will not occur until December 31, 2017 and the Retirement Contingency Fund has approximately \$740,000, no transfer into the fund is considered to be necessary at this time.

Fund Balances

For FY 2016-17, the District's Fund Balances are projected at \$12,300,543, as follows:

							2	2016-17
		2015-16	2016-17	2016-17	2016-17	2016-17	Ne	t (Us e of)/

		\$12,450,103	\$ 13,357,450	\$13,507,010	\$ -	\$12,300,543	\$	(149,560)

Conclusion

As is customary, staff will continue to monitor revenues and expenditures throughout the fiscal year and will make recommendations on modifications as necessary to ensure the District is able to provide quality services while maintaining a balanced budget.

The proposed FY 2016-17 budget is balanced, where revenues meet expenditures and addresses the many challenges facing the District, including escalating WNV cases and introduction of invasive *Aedes* mosquito species. District staff is committed to achieving its mission of protecting the health of all those living, working and playing in Orange County.

It is without a doubt that District employees are its greatest asset and most effective outreach resource. Staff takes pride in protecting the health of everyone who lives, works and plays in Orange County.

Department Overview

The Orange County Mosquito and Vector Control District is a special district organized in 1947. The District is governed by a 35 member Board of Trustees representing the 34 cities of Orange County and the County at Large. The Board of Trustees is the legislative body of the District and is responsible for the policies of the District and general oversight of the District's operations and performance. The Board of Trustees has seven standing committees: Executive; Policy and Personnel; Budget and Finance; Building, Property and Equipment; Operations; Public Relations; and Nuisance Abatement.

The District Manager is appointed by the Board of Trustees and serves at its pleasure. The District Manager is the Chief Executive Officer of the District. The District Manager appoints all Department Heads and is responsible for overseeing the daily operations of the District. The District Manager is assisted by an Executive Assistant/Clerk of the Board. The Executive Assistant/Clerk of the Board is responsible for the preparation of the agenda for the Trustee Board meetings and the maintaining of all official District documents and records. In addition, the Executive Assistant/Clerk of the Board provides general clerical support to the Board and District Manager.

The District Counsel advises the Board of Trustees on all matters of law in the conduct of District affairs. District Counsel prepares resolutions and contracts for consideration by the Board of Trustees. In addition, District Counsel reviews all legal documents and represents the District in matters involving litigation.

Department: Administrative Services

Departmental Programs

Administrative Services Insurance

Department Overview

The Administrative Services Department provides various support functions for the District. Administrative Services is responsible for Finance and Budget, Human Resources, Risk Management (Insurance) and Payroll. Financial responsibilities include developing and monitoring the annual budget; preparing monthly financial statements, accounts payables and receivables; administering petty cash; deferred compensation programs; managing fixed assets inventories; and ensuring compliance with government accounting requirements and standards.

Human Resources coordinates the recruitment and hiring of District staff; administers employee benefits; coordinates employee relations and unemployment issues; maintains employee files; processes District vehicle incident claims; and administers the District's Personnel and Salary Resolution.

Insurance activities involve processing, resolving, and settling claims against the District, as well as claims the District has against others. The District is a member of a self-insurance pool (Vector Control Joint Powers Agency) made up of approximately 40 other California vector control districts. This organization helps administer and manage employment, workers compensation, liability, collision, property, and other claims against the District.

Department: Scientific Technical Services

Departmental Programs

Scientific Technical Services

Department Overview

The Department of Scientific Technical Services conducts routine surveillance for several mosquito-borne diseases (West Nile virus, St. Louis encephalitis, and Western Equine encephalomyelitis), rodent-borne diseases (hantavirus and bubonic plague), tick-borne diseases (Lyme Borreliosis and Rocky Mountain spotted fever), and small mammal-reservoired diseases (murine and flea-borne typhus) throughout Orange County. The Department's environmental biologists develop vector minimization guidelines for other governmental regulatory agencies, make assessments of potential vector-producing sites as the result of residential development projects, monitor Best Management Practice (BMP) wetland usage, and oversees mosquito fish production and distribution. Additionally, Scientific Technical Services personnel proactively investigate re-emerging and emerging public health threats, such as Chagas' disease, Pacific Coast Tick Fever, and the introduction of new pests (brown widow spider, bark scorpion, and invasive Aedes mosquito species). Staff members also provide technical assistance to the Operations Department, specimen identification services, and advice for the public on pests and vector-borne diseases.

Field Operations Vehicle Maintenance Building Maintenance

Department Overview

The Operations Department is organized into three divisions:

<u>Field Operations</u> - This division's primary responsibility is to control mosquitos, rats, red imported fire ants, and flies. Inspectors safely, efficiently, and effectively use biorational materials to protect the public from vector-borne disease and discomfort.

<u>Vehicle Maintenance</u> - This Division is responsible for scheduled maintenance, repair, and replacement of District vehicles, and the fabrication of equipment used on District vehicles.

Building Maintenance - This division is responsible for the maintenance and repair of District facilities.

Departmental Programs

Public Outreach Information Technology Public Service

Department Overview

The Communications Department is organized into three divisions:

<u>Public Outreach</u> - The role of this division is education; staff works to engage the residents of Orange County in the shared responsibility of vector control. The Outreach staff also builds awareness of the District and its responsibilities. Public Outreach staff is responsible for education that is required of all certified staff. This division is also responsible for building and maintaining strong education of not only the public, but District staff as well. Maintains continuing relationships with elected officials at all levels of government.

<u>Information Technology</u> - This Division is responsible for incorporating the effective use of current technology. The division is also responsible for training staff to use this technology to provide the highest level of service to the public.

<u>Public Service</u> - This division is often the first, and sometimes the only, contact the public has with the Orange County Mosquito and Vector Control District.
